LOCATION: THE OCEAN FLOOR, 15 KM FROM RIO DE JANIERO!

HA HA HA... YES!!

THE NEW WEAPON IS READY!!

First this insanely devious device called the Biorobogenic Brain Waver" uses vibrations to transmit computer code into a fluid medium... like the sea around us

Then this part, the "Super High Intensity Trough-peaker" can create a huge wave to send that code wherever I want!"

I KNOW, DOC! I'VE BEEN HERE THE WHOLE TIME.

I WARNED YOU, MAGNET MAN! I TOLD YOU IF YOU "SURF" THE "WEB" ALL DAY YOU'LL GET STUCK TO YOUR CHAIR!

NOW LOOK, LOOK AT YOU, YOU ARE WORSE THAN EVER!

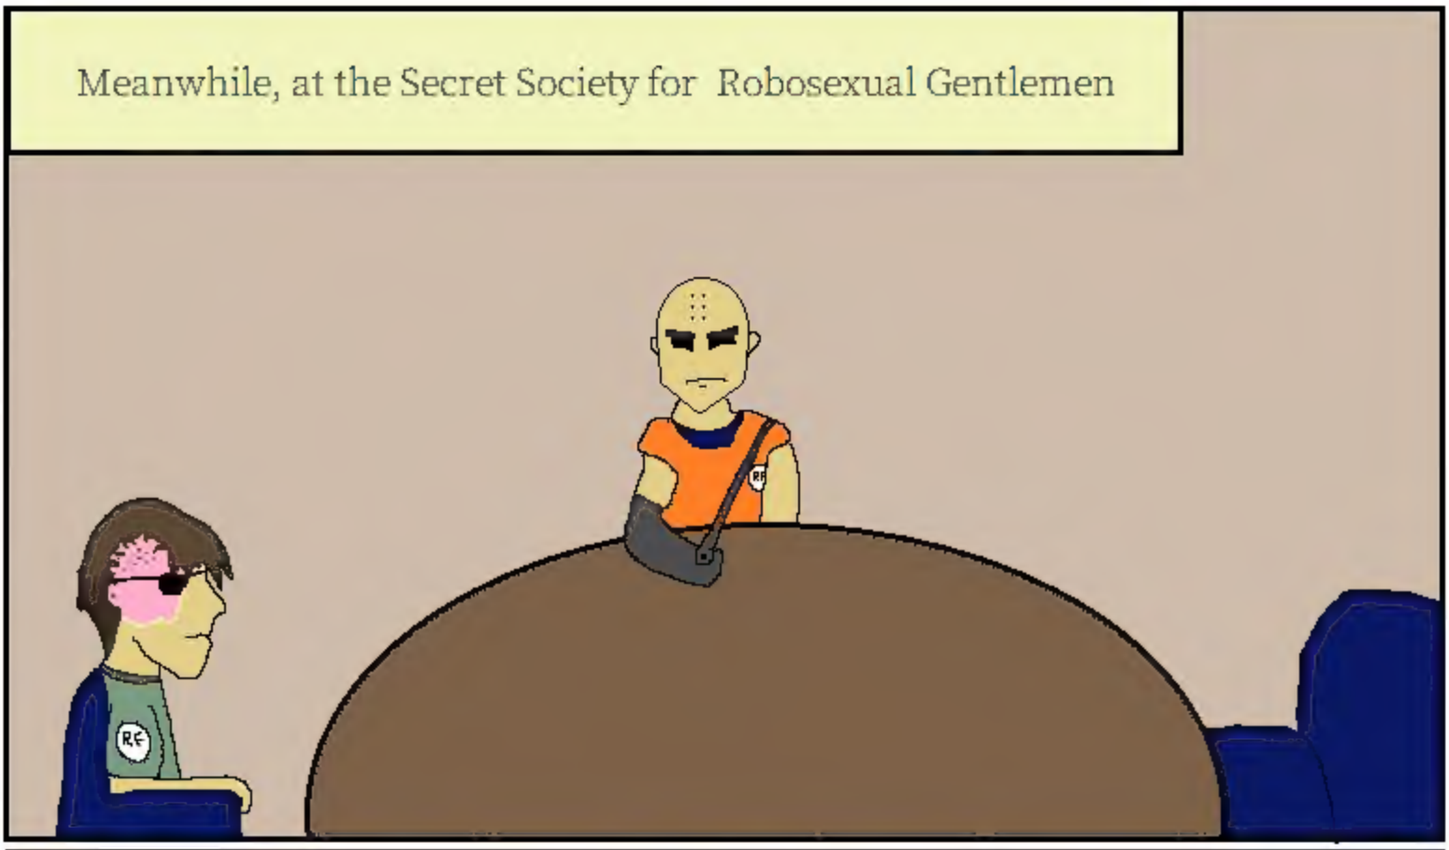
YEAH THAT MAKES SENSE

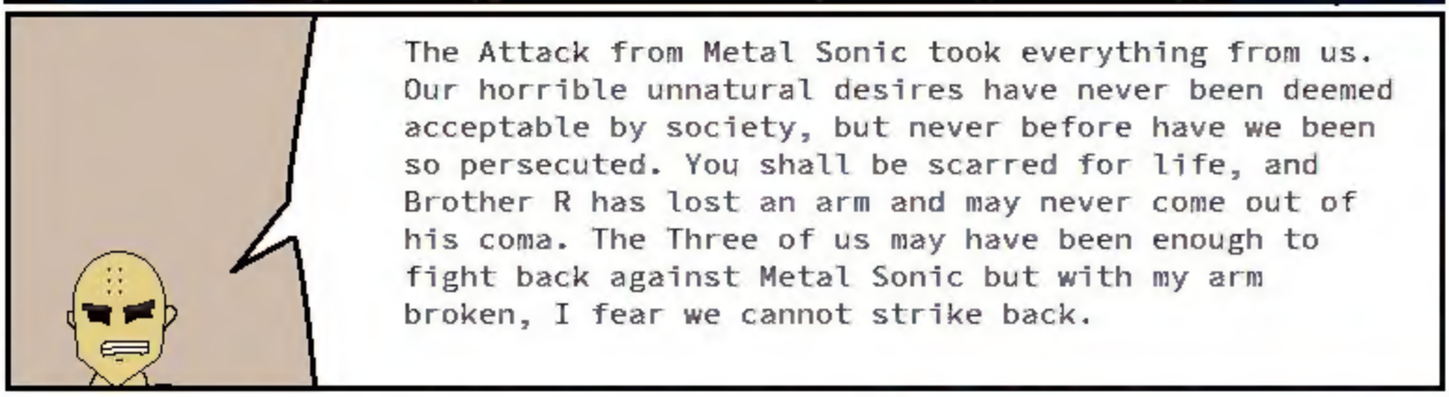
THIS CD-ROM CONTAINS AN INSANELY DEVIOUS COMPUTER VIRUS WHICH CAN INFECT UP TO EIGHT VICTIMS AT A TIME AND TURN THEM INTO MY LOYAL SOLDIERS!

NOW BEGIN THE "DEPLOYMENT PROTOCOL": BIOROBOGENIC BRAIN WAVER VIA SUPER HIGH INTENSITY TROUGH-PEAKER!

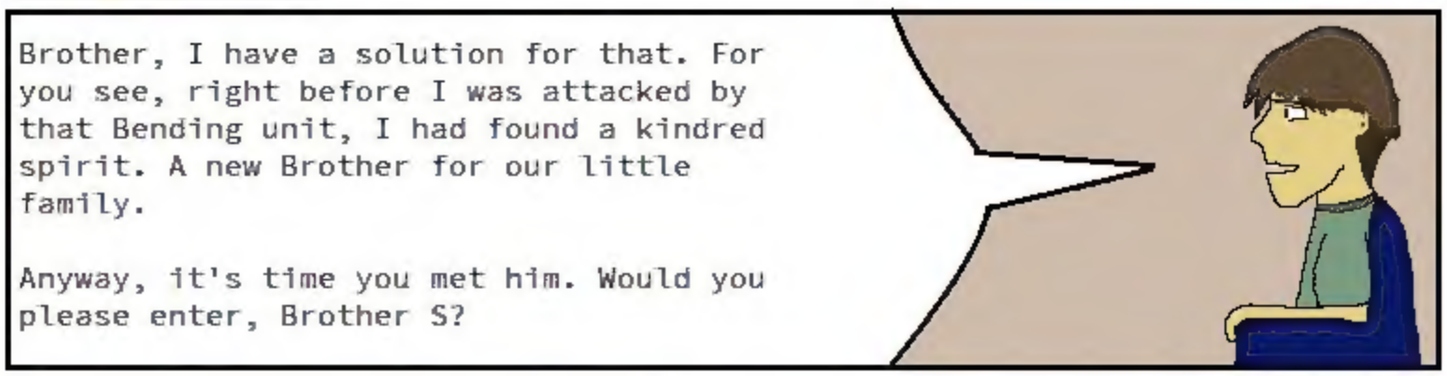
GOT IT... DP THE BBW THEN TAKE A SHIT!!



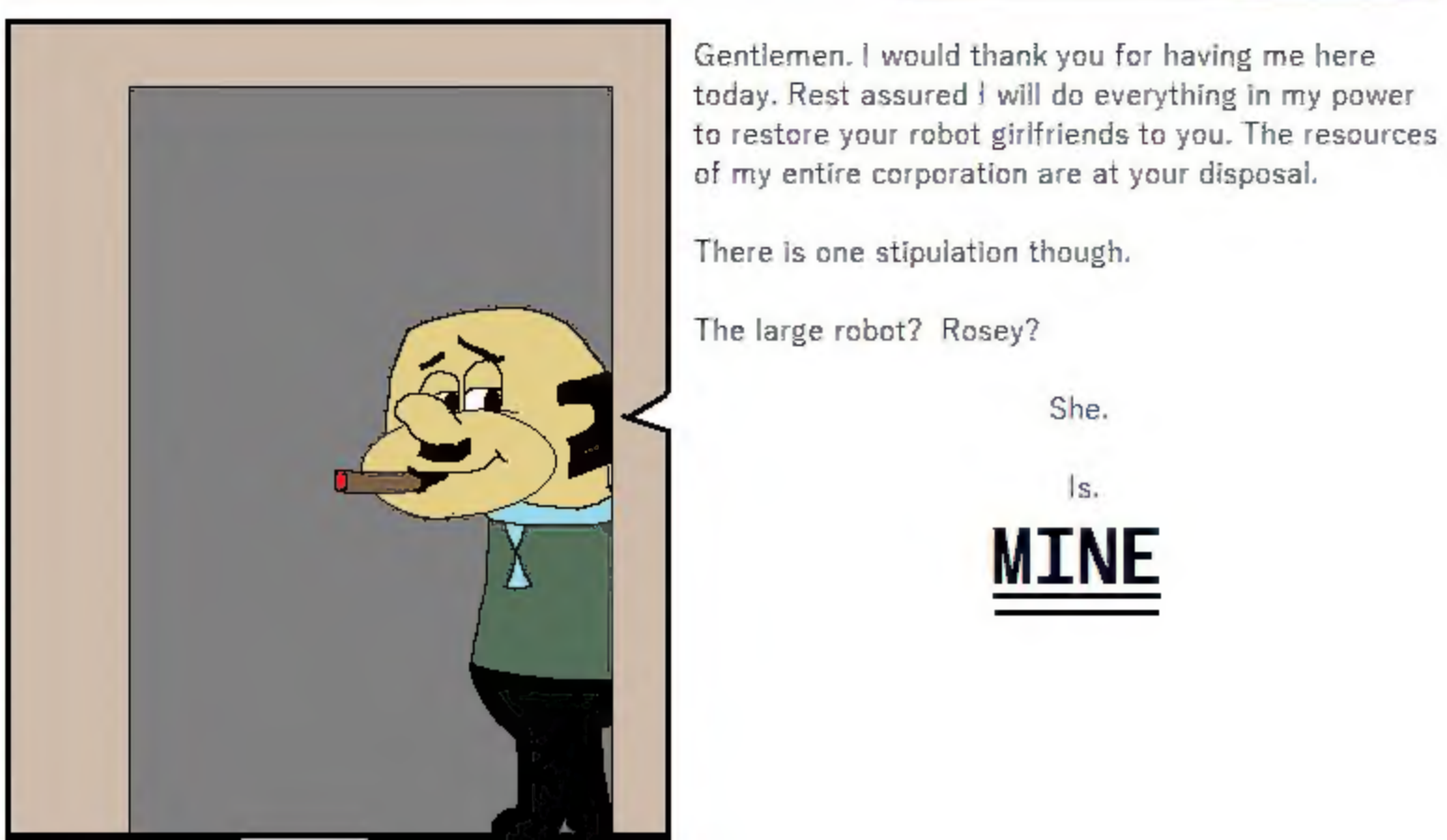
Meanwhile, at the Secret Society for Robosexual Gentlemen



The Attack from Metal Sonic took everything from us. Our horrible unnatural desires have never been deemed acceptable by society, but never before have we been so persecuted. You shall be scarred for life, and Brother R has lost an arm and may never come out of his coma. The Three of us may have been enough to fight back against Metal Sonic but with my arm broken, I fear we cannot strike back.



Brother, I have a solution for that. For you see, right before I was attacked by that Bending unit, I had found a kindred spirit. A new Brother for our little family.
Anyway, it's time you met him. Would you please enter, Brother S?



Gentlemen. I would thank you for having me here today. Rest assured I will do everything in my power to restore your robot girlfriends to you. The resources of my entire corporation are at your disposal.
There is one stipulation though.
The large robot? Rosey?

THE SOMETHING AWFUL GOONS AND
OPTICAL INTERNET TRANSLATION GANG PRESENT:

NEO-Novas Aventuras de Megaman Issue "#19"

This release is a collected free-form fan comic created by posters on the Something Awful forums. The original BR Megaman issues were read, enjoyed, and discussed, and the thread quickly decided that if there wasn't an ending, we'll make more (and probably also never end it). Posters began to churn out new pages, the only hint of order being a loose attempt to take turns making pages. Otherwise, there were no real rules or particular attempt to maintain continuity with either the original comic or the new pages, unless you wanted to. Thread starter Warbird was also kind enough to make per page donations to RAINN, adding up to a total of $1335! Note that some pages are animated and/or large and may cause hangs/crashes with your software.

Please extract this file in your archive program of choice if you'd like to see the single files, as as always there is also a folder full of fanart and extras included!
